YOUR LOCAL COMMUNITY  
 MENTAL HEALTH CENTER

## What is TelePsychiatry?

TelePsychiatry is a way for you to see a trained specialist using the latest in video and communication technology. You and the specialist will see each other through a large screen TV. The connection is over a high-speed network that is secure and private.

## How can you get a TelePsychiatry appointment?

Start at your Community Mental Health Center. One of the professionals there can make a TelePsychiatry appointment for you.

When the time for your appointment has arrived, a professional from your local center will bring you into a comfortable private room with a large screen TV. At the click of a button, your appointment will begin.

## Does your local center offer TelePsychiatry?

The map in this brochure shows where existing TelePsychiatry sites are located. It also shows where future sites will be offered.

A TELEPSYCHIATRY SESSION IN PROGRESS.

## Here's what you can get from a TelePsychiatry appointment.

TelePsychiatry services include:

- Mental Health evaluations
- Ongoing Medication Management
- Child and Youth Psychiatry Services
- Treatment for Age-related Conditions
- Consultation and Therapy

## What makes TelePsychiatry so appealing?

You won't have to travel far to see trained specialists. You can see them at your local Community Mental Health Center. It's a lot more convenient for you and the quality of care is excellent.
